## Tool for Bizzarrini

### BZR 3

This special tool has been developed for easy tightening and unscrewing wing-nuts. We use high-strength aluminium alloys as they are used for aircraft-construction so that we can assure very stable and light tools.

To avoid damage to the wing-nut the tool coatings are made of high-quality plastics.

The drive comes from a 1" square. With an adapter it can be reduced to a 1/2" square for allowing using a torque key.

Wing-nut

Tool

## Accessoires

When unscrewing the nuts very high powers can develop.  
Therefore we recommend our big  $\frac{3}{4}$ " ratchet with  
screw able handle bar extension.

You need an adapter 1" on  $\frac{3}{4}$ ".

For the right distance between ratchet and  
car body you need a 100 mm  $\frac{3}{4}$ " square extension.

For transporting the vehicle we recommend our special tool box fitted with  
soft textile for protection (protective sheath).

Large ratchet with grip  
extension, 75 cm long.  
Art. Nr. **K500-34 G750-V**

torque key  
60 - 300 Nm  
Art. Nr. **D60-300**

$\frac{3}{4}$ " joint handle 65 cm long.  
Art. Nr. **GLD-34**

Adapter  $\frac{3}{4}$ "- $\frac{1}{2}$ "  
Art. Nr. **V12-34**

Extension  $\frac{3}{4}$ " 100 mm long  
Art. Nr. **V100-34**

Adapter 1"- $\frac{3}{4}$ "  
Art. Nr. **V34-1**

protective sheath big, for tools  
Art. Nr. **F500-XL**

protective sheath long, for ratchet or  
torque key  
Art. Nr. **F300-CL**
