## Tool for MB 380 K / 500 K / 540 K

### MBK 2

This special tool has been developed for easy tightening and unscrewing wing-nuts. We use high-strength aluminium alloys as they are used for aircraft-construction so that we can assure very stable and light tools. To avoid damage to the wing-nut the tool coatings are made of high-quality plastics.

The drive comes from a 1" square. With an adapter it can be reduced to a 1/2" square for allowing using a torque key.

Wing-nut

Tool

## Accessoires

When unscrewing the nuts very high powers can develop. Therefore we recommend our adapter 1" on 3/4" and the big 3/4" ratchet with screw able handle bar extension.

You need an adapter 1" on 3/4".

For transporting the vehicle we recommend our special tool box fitted with soft textile for protection (protective sheath).

Large 3/4" ratchet with grip extension, 75 cm long.

**Art. Nr. K500-34 G750-V**

torque key  
60 - 300 Nm

**Art. Nr. D60-300**

3/4" joint handle 65 cm long.

**Art. Nr. GLD-34**

Adapter 3/4"-1/2"

**Art. Nr. V12-34**

Extension 3/4" 100 mm long

**Art. Nr. V100-34**

Adapter 1"-3/4"

**Art. Nr. V34-1**
